MEN'S HEALTH FORMULA

NATURAL TESTOSTERONE-BOOSTER FOR COMPLETE MEN'S HEALTH

Men age faster in a high stress environment, and it takes a toll on their mental and physical performance. 1-in-4 men as young as 30 are diagnosed with low testosterone levels that can lead to health issues such as fatigue, loss of muscle mass, weak bones, and even depression.

By the age of 40, testosterone levels naturally plummet, affecting overall men's health, heart health, and weight gain, and lowering their well-being.

SOLUTION:

TESTOSTERONE: THE MOST IMPORTANT HORMONE FOR MEN

Testosterone plays such an important role in the quality of life. It is aptly described as the "King of the Hormones". It is critical for strength of the heart, bone, muscles, mood and stamina.

Q Alive is a plant-based supplement made of four natural active ingredients that have been clinically proven to optimise testosterone production in the body.

OUR DISCOVERY:

Physta® has been clinically proven in human studies^{1,2} to enable:

**47% INCREASE
IN TESTOSTERONE¹**

**73% HIGHER
PHYSICAL STRENGTH²**

**82% IMPROVED
MOOD²**

Disclaimer: Test results are required to be interpreted in accordance with the standards, practices and limitations of the testing adopted.

Q ALIVE USES THE WORLD'S BEST TONGKAT ALI

Where most commercial Tongkat Ali uses a crude herb extract, Q Alive's Tongkat Ali Physta® is made with advanced patented technology used to extract 100% pure extract that contains standardised bioactive peptides. The Tongkat Ali Physta® proves to be more effective than other normal Tongkat Ali you can find on the shelves. It has been scientifically proven in 17 clinical studies, to increase testosterone production naturally in the body, and provides many other health benefits.

THE SCIENCE CHECKS OUT

Research shows that many men's vitality products in the market are contaminated with heavy metal or harmful drug substances, to create instant results. However, their effects are not long lasting and may cause dangerous side effects.³

QNET goes the extra mile to obtain third party lab validation to ensure no harmful banned substances are included in our product. Q Alive undergoes strict manufacturing practices to ensure quality ingredients are used for long lasting health benefits.

THE RESULTS:

- Boosts strength & stamina
- Maintains muscle mass & bone density
- Reduces body fat accumulation
- Improves body shape & metabolic rate
- Improves blood circulation & sexual health
- Elevates mood & reduces stress

KEY INGREDIENTS:

Tongkat Ali Physta®
(*Eurycoma Longifolia*)

Black Maca

Tribulus Terrestris

Horny Goat Weed

HOW TO CONSUME:

Take 2 capsules a day for 5 consecutive days, followed by 2 rest days.
For best results, take after dinner.
